

LOGISTICS SOLUTIONS

Let us increase your logistics operational efficiency.

A 3PL provider since 1971, JTS is committed to providing unmatched customer service and management strategies to improve service, control costs and reduce claims.

Longevity and experience you can trust

A third-party logistics provider, licensed property broker licensed ocean freight forwarder and NVOCC, JTS has been in business since 1971, so you can depend on our experience, financial strength and soundness.

LTL Common Carrier Service

For shipments of one to 14 pallets, leverage JTS' buying power. We'll customize an LTL program using multiple, reliable carrier options to streamline your LTL process. We handle all negotiations, pick-up scheduling, service monitoring and invoice auditing, cross-docking and pool distribution.

LTL Consolidation

We can pool your Non-Perishable freight with compatible freight of our many customers. We coordinate pick-up and delivery schedules so your freight is handled at a minimum, generally only at the original loading and unloading site. This option minimizes the risk of damage to more fragile freight as it's handled fewer times in transit.

Temp-Controlled LTL (Heated, Cooled, Frozen)

We also offer solutions for shipments requiring regulated temperatures for heated, cooled or frozen commodities.

Logistics Management and Consulting

JTS customers get a free evaluation of load routing, consolidation, carriers, lanes, orders and route planning, to improve operations.

Warehouse/DC Services

We can find you the best warehouse and location to meet your needs, anywhere in North America.

Transportation Management

Some companies struggle to find labor or are forced to cut benefits, wages and other logistics management costs at their company. Outsourcing freight coordination to JTS can help. Let us do an analysis to see if you can realize gains in this area.

Continuous development and investment in technology

At JTS, the evolution of technology is always moving forward. We make investments to offer the most advanced features possible.

As a value-added benefit of partnering with JTS, we offer our cloud-based  **arriviture**[®] TMS, **arriviture**[®], to our customers at no cost. The system is powered by MacroPoint[®], project 44[®], SMC3[®], CLOUDFLARE[®], Atmosera[®], PCMIler[®], DAT[®], and Microsoft[®] Azure[™].

Customers gain instant access and visibility into their logistics communications any time, any where.

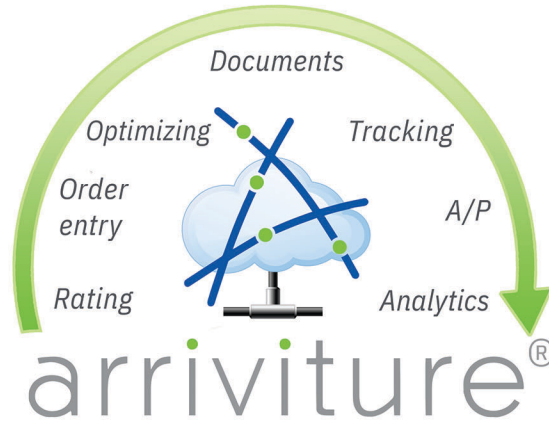

You will receive a login to Arriviture for access to customized dry and perishable rates. Simply enter the weight, destination and origination zip codes and get an instant quote on your desktop! Rates are priced to your account, from any point to any point in the U.S. with delivery nationwide. Scheduled pick-up dates are available for each metro area so you can plan shipments with ease. You can also enter orders, trace, consolidate shipments, run analytics reports, create shipping documents and view invoices.

LOGISTICS SOLUTIONS

From departure to Arriviture. Do it all, see it all.
